

SOUTHERN CALIFORNIA EDISON PARTNERSHIPS

Southern California Edison (SCE) works closely with local governments and institutions through our Energy Efficiency Partnerships Program to assist them in achieving a joint vision of sustainability. Through the Partnerships Program, SCE provides financial and technical support to governments and institutions, helping them lead by example by performing energy efficiency retrofits in government facilities. In addition, the program supports community outreach, serving as a portal to other energy efficiency programs.

This map identifies the Southern California Edison local government partnerships.

Local Government Partnerships (Energy Leader Partnerships)

Provides Local Governments with technical, financial and strategic plan support to achieve a joint vision of sustainability.

SCE has Partnerships with 112 cities and counties - almost 65% of all cities in SCE's service territory!

Institutional Partnerships

SCE has 7 Institutional Partners, covering the majority of large institutions in the state of California.
