

**DOE Webcast December 3, 2015:
E.O. 13693: Recent Developments, Implementation Updates,
and Opportunities
0.2 CEUs**

The U.S. Department of Energy (DOE) Federal Energy Management Program (FEMP) will present a new *First Thursday Seminar, E.O. 13693: Recent Developments and Implementation Updates*, from 1:30 to 3:00 pm EST on December 3, 2015.

The course will cover major goals of E.O. 13693 and provide examples of technologies and concepts that the Department of Energy and other federal agencies are using to meet the goals. The seminar will also cover assistance that FEMP provides to other federal agencies, with a special focus on how to use performance contracting, including UESCs and ESPCs, to meet E.O. 13693 compliance goals.

The instructors for this seminar are John Shonder, Director of the U.S. Dept. of Energy's Sustainability Performance Office and Joshua Silverman, Director of the U.S. Dept. of Energy's Office of Environmental Stewardship.

After completing this foundational course, learners will be able to:

- Understand provisions outlined in Executive Order 13693 and how these differ from previous Executive Orders
- Identify strategies for implementing and financing E.O. 13693 provisions
- Determine opportunities to customize E.O. 13693 strategic sustainability plans for individual agencies and missions

Participants are encouraged to submit their questions during the program to receive tailored advice from the experts.

The 90-minute training is free of charge, but advanced registration is required to obtain an Internet URL for the presentation.

For more information and to register, visit the FEMP First Thursday Seminars website.

For other free training courses offered by FEMP in association with the Whole Building Design Guide, visit the FEMP Training website.
