

FIRST THURSDAY UPDATE

Strategic Planning for Renewable Energy Deployment: **REopt**

January 7, 2016 1:30 PM ET

REGISTER NOW!

**Learn how to implement enterprise-wide
renewable energy investment strategies.**

Single stand-alone renewable energy projects can provide clean energy for a building or a site.

**Strategically deployed renewable energy investments provide
clean energy systems across an entire organization!**

Learn how to:

Develop systematic approaches to achieve enterprise-wide sustainability goals

Gain insight from successful projects other agencies have implemented

Take advantage of REopt, the Renewable Energy Optimization service

See how REopt services can:

Screen opportunities across a wide portfolio of sites

Analyze implementation scenarios and sensitivities

Prioritize opportunities for further study and investment

Instructors:

Brad Gustafson, LEED AP, PE
Supervisor, Technical Services
FEMP

Kate Anderson

Senior Engineer and Manager
NREL

Rachel Shepherd

Renewable Energy
Program Manager
FEMP

FEMP eTraining

Also **REGISTER** for FEMP's Certificate Series

Renewable Energy Technology Applications

Earn CEUs!
