Energy Savings Performance Contracts: Five Phases to Success!

3.5 Hrs 0.40 CEUs

Complete energy-savings projects without up-front capital costs and special Congressional appropriations

Learn the:

- **Basics of an ESPC**, including definitions, scope, authorizing legislation, financing arrangements, project team roles, and key contracting documents
- **Importance of measurement and verification (M&V)** to a successful project, including M&V concepts, how guarantees are met, and the definition of savings
- **Role of the Risk, Responsibility, and Performance Matrix (RRPM)** in summarizing and assigning risks and/or responsibilities to the ESCO, agency, or both
- **Five Phases of ESPC development** from planning to performance period and close-out

After completing a course evaluation and multiple-choice assessment, participants will receive
Certificate of Completion
IACET Continuing Education Units
