

Managing Water Assessments in Federal Facilities

3.5 HRS .4 FEMP CEUs

Learn how to manage the water assessment process to save resources and operating costs and comply with Federal mandates:

- Plan and/or manage a water assessment at a Federal site
- Develop a water balance using information such as utility bills and metered data
- Manage walk-through surveys of building plumbing fixtures, laboratory equipment, cooling towers, and irrigation
- Develop a plan for improving water efficiency using key survey findings
- Identify and prioritize water efficient technologies
- Contract for water management services

FEMP Core Courses

- No cost, no travel, access 24/7
- Online, open-access courses
- Instructors with Federal sector experience
- In-depth courses completed at your pace
