

# Key Solutions & Actions to Achieve the Goal

**GOAL: Transform EM&V to yield more accurate, credible, and timely results that accelerate successful energy efficiency deployment and management**

Three Major Work Areas

**Develop a foundation for improving credibility and cross-jurisdiction comparability**

**Explore new methods to address emerging issues and technologies**

**Build capacity and increase adoption of best practices**

Priority Solution Areas

**1. Consistent savings estimates and consistent and comparable reporting**

Resource for calculations, uniform definitions and common forms

**2. Review and update EM&V resource guides**

Impact evaluation techniques explained

**3. Uniform methods and/or standards**

Set of voluntary methods/protocols

**4. Explore new technology solutions**

Use Smart Grid and AMI to measure and verify savings

**5. Innovative analysis techniques**

New methods provide more efficient EM&V and maintain rigor

**6. Resource accessibility and tool development**

National or regional databases of reports, plans, and stipulated savings values

**7. Training**

Increase the number of EM&V practitioners and their level of expertise and experience

\*EM&V is different from the other SEE Action working groups; it does not focus on a sector or one issue. Hence, each of the solution pathways are highly interconnected.
